The Wyoming Environmental Quality Act, W.S. 35-11-101 and Wyoming Environmental Quality Act, Article 3, W.S. 35-11-301 mandates that permits are required for construction or modification of public water supplies, wastewater facilities, land application systems, and confined swine feeding operations. W.S. 18-5-306 requires the review of the safety and adequacy of proposed sewage systems and water systems in new subdivisions by the Department of Environmental Quality.

All Wyoming Water Quality Regulations are available at <http://deq.state.wy.us/wqd/WQDrules/index.asp>

Chapter 3 of the Wyoming Water Quality Division Rules and Regulations defines the permitting process.

Specific chapters of the Wyoming Water Quality Rules and Regulations have been developed for each of the areas that require a permit. The regulatory chapters for types of projects that this application is to be used for are listed below. Please check all that apply to your project.

11	Design and Construction Standards for Sewerage Systems, Treatment Works, Disposal System of other Facilities Capable of Causing or Contributing to Pollution, includes septic tanks/leach fields, monitoring wells, and road application of wastewater
12	Design and Construction Standards for Public Water Supplies, includes subdivision water supplies and water line extensions
21	Standards for the Reuse of Treated Wastewater
23	Minimum Standards for Subdivision Applications
Other	Describe briefly
